Sub 12 *Active* / *Air*

AUDIUM
Ideen, die man hört

Available in: *High Gloss Black / White*

Product Information

AUDIUM Sub 12 - the missing link for a complete AUDIUM surround system, or a deep bass extension of your existing loudspeaker system.

It is based on our long approved digital amplifier technology combined with a very fast, high-efficiency SMPS driving a strong 30cm long-throw downfired woofer with bass-reflex.

The DSP inside allows extensive adjustments of parameters, the Air Version inplements room adaptation, networking and comfortable control of the Sub through the AUDIUM App, right from your smartphone, tablet or computer.

AUDIUM - on the pulse of time!

Active Version

The ***Active*** version of the Sub 12 implements all features of an state-of-the-art subwoofer. Most important are:

- 250W RMS, 500W Peak
- Frequency Range: 25 - 180Hz
- Auto-On and Off
- LFE / Cinch Input
- Symmetric XLR Input
- High Level Speaker Input
- Display + Encoder for menu-driven configuration of parameters
- Parameter: Volume, Frequency, Slope, HighPass, Phase, EQ
- Presets and User-Storage

Simply connect the Sub to your existing Audio- or Surround System through one of the available connectors.
If you already have AUDIUM Speaker you can choose one of the presets saved in the Sub as a parameter base. Then adjust the parameters according to your needs and save them in one of the User-Storages. That's all!

Air Version

The ***Air*** version of the Sub 12 is even more a step into modern music reproduction.
It extends the hardware- as well as the software-capabilities of the Sub integrating it into your home-network and allowing comfortable configuration!

Here are the Hardware AddOns:

- Digital SPDIF In / Out
- RJ45 LAN socket
- WiFi Antenna

And Software AddOns:

- Configuration through App on your SmartPhone, Tablet or Computer
- Room Adaptation
- AirPlay / DLNA Receiver (with output through SPDIF for connecting AUDIUM Digital Speakers)
- Multiroom/Speaker support with other AUDIUM loudsperakers through SongCast
- Easy upgrade from Active to Air
